

Hints for portraits

- ◆ I will consult with you to choose a location and setting that you like. Portraits can be made outdoors, in your home or in my studio.
- ◆ Family groups that coordinate clothing look great! Solid colors photograph better than plaids, stripes and patterns.
- ◆ Glass glare can be prevented by removing your lenses or borrowing a pair of empty frames.
- ◆ Your suggestions are welcome!

Terms

Payment: The sitting fee is due when the portraits are taken. Half of the print order is due when the order is placed with the balance due when the order is completed.

Ordering Procedure: When your portraits are ready, we will call you to schedule a time to view them on our computer and place your order. There will be only one viewing per family, so it is helpful if you have an idea who you wish to order portraits for and what sizes when you come for your scheduled time to place your order. Online viewing is also an option for ordering your portraits through our web site if that is more convenient for you.

Sales tax is added to all orders.

Why does a Professional Photographer make all the difference?

A professional Photographer makes all the difference between a picture and a portrait. Pictures only reflect what the camera sees, while our portraits interpret your personality and moods. Years of experience and training give a professional photographer a sixth sense about people. We know how to put you at ease, how to quickly read your unique personality, blend your image with a pleasing background and capture it all beautifully. Our professional portraits ensure quality and your satisfaction. Anybody can take a picture, but a professional creates a portrait.

HOURS: To better serve you, our hours are by appointment to fit your schedule. This does include weekends and evenings.
